A Member of ISA TanTec Group

Scamosceria del Brenta Srl (Scabrenta)

In 2017, ISA TanTec acquired a major stake in Scamosceria del Brenta Srl (Scabrenta), an Italian tannery with a tradition of more than 75 years in tanning and even longer in leather trading.

Scabrenta, using its proprietary technology and deep knowledge of Italian leather making, will be an important R&D hub for various kinds of leather solutions within the ISA group. Importantly, ISA will be able to deliver Italian developed leather to the Asian market, broadening the range and quality of solutions for its customers.

COLLECTION

Fall / Winter 2019 Color Introduction:

The theme for the Fall 2019 season is Craft Brewing. The skilled art of brewing beer has many similarities to the craftsmanship of making leather. Having the best ingredients is essential. Top of the line equipment will yield desired results. A delicate balance between Scientist and Artist.

Please enjoy these Color Pairings from ISA TanTec.

Contrast is Key. There is an element of surprise when mid tones are paired with moodier colors. Retro & mid century neutrals with contemporary sharpness have a long lasting appeal: CASK is a modern tone transitioning between seasons, paired with the vintage BLUE MOON. HARVEST ALE plays on the success of red and has a comforting quality perfect for autumn. A dark forest undergrowth of GREEN LAKE and plum purple shades of PURPLE HAZE.

Neutrals, particularly greys, continue to elevate as fashion tones. For Fall 19 they appear veiled and muted, even *FILTERED*. The pink casted grey of KEG combined with the visceral RUBAEUS and winter friendly WILD BLUE. Grounded with mysterious BLACK LAGER. Dark clouds and smoke inspire the varying shades of GROWLER, TANKARD & STEIN.

Colors embrace stability with commercial undercurrent. Harmonious v.s. harsh. Focus is on mid tones and neutrals that are interesting in depth and duality. PILSNER has strong commercial appeal. Add the sophistication and solidarity of BARLEY. The cross category appeal of PALE ALE and everyday sensibility of HONEY WEISS. All with the white backdrop of TONIC.

Colors with an edge. A reddened brown with a sense of duality, PORTER is the key color of the season. Colors are sitting in the medium saturation point of the spectrum: SUNSET WHEAT is warm for a winter season. OKTOBERFEST has an expressive energy, sitting alongside the creamy DRAFT.
