# FW2018 LUXURY LEATHER

— ISA —  
TanTec

The Brand < Behind The Brand

The ISA Luxury Collection offers fashionable leathers that are suitable for a wide range of products including handbags, wallets, accessories and leather-goods for both men and women.

Our products include various tannages, finishing options, and pricing in order to meet the needs of our customers. Our colors are according to WGSN, and other major fashion forecasting companies to ensure that each collection is in-line with the trend of the season.

Our leathers are developed to meet our customer's physical and chemical requirements. Our in-house certified laboratories conduct tests to ensure quality, and compliance.

### **Advantages of Partnering with ISA TanTec**

- **LITE Concept**

Our trademarked LITE index gives us the ability to provide water and energy savings rates for every leather or label.

- **The Most Advanced RSL System**

ISA TanTec has a dedicated team working on the latest RSL standards from around the globe, collecting information from the leading brands and implementing the latest standards into routine test methods for all of our leathers.

- **"A" Rated Traceability to the Slaughterhouse**

All leathers used in production can be traced to the slaughterhouse. We only purchase raw material from LWG Golden Rated suppliers.

- **Vertically Integrated Production**

We offer our customers standardized solutions for handbag cut parts in order to ensure cost efficiencies, and short lead times.

- **Quality and Consistency / Consistency within All Production Locations**

We guarantee a stable raw material supply base from LWG Gold Rated suppliers, 100% internal finish leather inspection, and control over the entire supply chain.

- **Global Manufacturing Footprint (Local Delivery Door to Door)**

ISA is proud to offer 3 production locations USA, Vietnam, China covering all of the primary global production areas.

# ISA Colors for FW2018

**Fall / Winter 2018 Introduction:** The theme for Fall / Winter 2018 is: SPICES. There are so many spices to evoke positive sensory responses in all of us. The familiar smells of your favorite dishes being prepared in the kitchen. Tasting a particular food and immediately knowing what spice has been included in the recipe. For the Fall / Winter 2018 color story we are focused on sight. And exploring the rich colorations spices from around the world have to offer us.

**SEASONAL:** The seasonal pallet continues to be layered and shows an energized vitality. Standing out is a sunset gold in MUSTARD. POSH is a beautiful performance blue, while RED PEPPER is a layered red with a "pinch" of blue.

**NEUTRAL:** Neutrals are more soothing and calm this season, showing a youthful sophistication. Overall the pallet has a hazy filter. Greys are prominent and evolve into duality. TARRAGON sits between grey and green and BAY LEAF provides a dark taupe. BALSAMIC has a premium quality as dark blues continue to prove they are a fashion color while SAGE brings a soft green into the story as a versatile mid tone.

**CORE:** The Core pallet is moody with rich utilitarian colorations. NUTMEG walks a fine line between brown and green. Followed closely by the military green of FENNEL. MARSALA stands out as a mysterious plum shade. Anchoring the pallet is the rich complementary tone is PEPPER.

### ENERGY SAVED ▶

Compared to LWG 6.2 Pass Score (50%) of 67.2 MJ/m2 this leather will save 974.61 LED lighting hours (11W LED, 60 Watt incandescent) to make one bag (8.5 ft. per bag)

### WATER SAVED ▶

Compared to LWG 6.2 Pass Score (50%) of 178 l/m2, this leather will save 121.52 liters of water to make one bag (8.5 ft. per bag)

Lola is simply feminine, and supple to the touch. This leather is soft, but still has a rich round body. In our recommended thickness, Lola will give that satchel or drawstring a nice fluid body. If you want a more relaxed look, like a hobo or soft tote, then try Lola in a lighter weight!
