

FW2019 LUXURY LEATHER

The Brand  Behind The Brand

The ISA TanTec Luxury Collection offers classic and fashionable leathers that are suitable for a wide range of products including handbags, wallets, accessories and leather-goods for both men and women.

Our products include various tannages, finishing options, and pricing in order to meet the needs of our customers. Our colors are according to WGSN, and other major fashion forecasting companies to ensure that each collection is in-line with the trend of the season.

Our leathers are developed to meet our customer's physical and chemical requirements. Our in-house certified laboratories conduct tests to ensure quality, and compliance.

Advantages of Partnering with ISA TanTec

- **LITE Concept**

ISA LITE index provides water and energy savings rates for every leather or label.

- **The Most Advanced RSL System**

ISA TanTec works with its partners in the chemical industry to eliminate or significantly reduce the chemicals we believe are potentially problematic in the future from the supply chain, without sacrificing the performance of our leather. This system along with the Restricted Substance List, applies to ALL of its products, for ALL of its customers, at ALL times.

- **“A” Rated Traceability the Meat Processing Facility**

All leathers used in production can be traced to the meat processing facility. ISA TanTec only purchases raw material from LWG Gold Rated suppliers.

- **Vertically Integrated Production**

ISA TanTec offers our customers standardized solutions for handbag cut parts in order to ensure cost efficiencies, and short lead times.

- **Quality and Consistency / Consistency within All Production Locations**

Stable material supply base from LWG Gold Rated tanneries, 100% internal finish leather inspection, and control over the entire supply chain.

- **Global Manufacturing Footprint (Local Delivery Door to Door)**

ISA TanTec is proud to offer 4 production locations USA, Vietnam, China and Italy covering all of the primary global production areas.
